FRESHMEN,	82
TOTAL,	268

ADMISSION.

Candidates for admission to the Freshman Class are required to pass a written examination in the following books and subjects:—

Latin Grammar, including Prosody—Harkness's preferred.
Harkness's Latin Prose Composition, Part II. to Lesson LXX., or an equivalent.
Sallust—Catilinarian War, or Allen's Latin Selections.
Cicero—seven orations.
Virgil—the Bucolics, and the first six books of the Æneid.

Greek Grammar—Crosby, Kuehner, Hadley, or Goodwin.
Xenophon—Anabasis, three books.
Homer—Iliad, two books.
Ancient Geography.

Arithmetic.
Algebra—Loomis's, to Quadratic Equations.
Geometry—Loomis's, two books.
English Grammar, including Orthography and Orthoepy.
Modern Geography.

The examination in the common English branches will be insisted on with no less strictness than in the Ancient Languages and the Mathematics. Real equivalents will be accepted instead of the text-books named.

Candidates for the Scientific Course are required to pass examination in all the foregoing subjects, except the Greek.

Candidates for higher standing are examined as above, and also in the studies gone over by the class to which they may desire admission. For the

particular books in Greek, Latin, or Modern Languages studied by each class, equivalent amounts may be offered from other books in the same language.

The stated times for examination are the Monday preceding Commencement, at two o'clock, P. M., and the last day of the following vacation, (Wednesday, September 10, 1873,) at eight o'clock, A. M. But in special cases candidates may be examined and admitted at other times in the year, excepting that no admission to the Senior Class is allowed later than the beginning of the second term.

Those who apply for examination on the days above named, should be careful to present themselves punctually at the appointed hour.

The place for examination is the Alumni Hall.

Before examination, the candidate must exhibit satisfactory testimonials that he sustains a good moral character. If he has been a member of any other College, he will be expected to present a certificate of regular dismission.

No one can be admitted to the Freshman Class until he has completed his fourteenth year: and no one to an advanced standing without a corresponding increase of age.

During the Year.—Exercises in Physical Culture. Compositions.

SCIENTIFIC COURSE.

The general course given above in detail, is so arranged, that a three-years' scientific course is formed by omitting the Latin and Greek, and taking the optional studies in Science and Modern Languages. The degree of Bachelor of Science is conferred on every student who has satisfactorily completed this course.

EXERCISES.

There are either three Recitations, or two Recitations and two Lectures daily, excepting Wednesday and Saturday, when one Recitation is omitted.

On every Wednesday afternoon there is a public Exercise in Declamation, in which the classes speak by divisions, and for which preparation is made by private rehearsal before the Professor of Rhetoric or the Instructor in Elocution. Seniors and Juniors deliver original Compositions.

Biblical instruction is given to each class during some portion of every year.

There is public worship in the Chapel every Sabbath; and prayers every week-day morning. Every Thursday evening there is preaching or some other religious exercise, which the students are invited, but not required to attend. There are also prayer-meetings regularly on Sabbath evenings, and class prayer-meetings on Saturday evenings.

LECTURES.

FIRST TERM.

SENIORS.

Mineralogy.—Professor Shepard, thirty lectures.

Psychology.—Professor J. H. Seelye, through the term, in connection with the text-book, at eight o'clock.

English Literature.—Professor L. C. Seelye, through the term, in connection with the text-book.

Geology and Zoölogy.—Professor Emerson, six days in the week.

Astrolithology.—Professor Shepard.

JUNIORS.

Natural Philosophy.—Professor Snell, Wednesday and Saturday, at ten o'clock.

Chemistry.—Professor Harris, through the term.

Mineralogy.—Professor Shepard, eight lectures.

Greek Literature.—Professor Tyler, Monday, at eight o'clock.

Anatomy and Physiology —Professor Hitchcock, Monday and Wednesday.

SOPHOMORES.

Latin Language and Literature.—Professor Crowell, Saturday.

Chemistry.—Professor Harris, through the term, in connection with the text-book.

FRESHMEN.

Laws of Health.—Professor Hitchcock, Monday, at eight o'clock.

SECOND TERM.

SENIORS.

Hebrew Theocracy and its Records.—The President, four days in the week, for the first five weeks, at eleven o'clock.

Scientific Evidences of Religion.—Rev. Dr. E. F. Burr, of Lyme, Ct.

Moral Philosophy.—Professor J. H. Seelye, through the term, in connection with the text-book, at eight o'clock.

English Literature.—Prof. L. C. Seelye, during the first half of the term, in connection with the text-book.

Geology and Palæontology.—Professor Emerson, in connection with the text-book.

JUNIORS.

Natural Philosophy.—Professor Snell, Wednesday and Saturday, at ten o'clock.

Latin Literature.—Professor Crowell, Monday.

Göthe and Schiller.—Professor Mather, Friday, P. M.

SOPHOMORES.

Greek Literature.—Professor Tyler, Wednesday, at half-past eleven o'clock.

Romanic Languages.—Professor Montague, Saturday, during the first half of the term.

Chemistry.—Professor Harris, through the term, in connection with the text-book.

FRESHMEN.

The Greek Historians.—Professor Mather, half of the term.

THIRD TERM.

SENIORS.

History of Philosophy.—Professor J. H. Seelye, through the term, in connection with the text-book.

Law.—Professor Theodore W. Dwight of Columbia College.

Fine Arts.—*Architecture*, Professor Snell; *Sculpture*, Professor Mather; *Painting*, Professor J. H. Seelye; *Poetry*, Professor Tyler; *Oratory*, Professor L. C. Seelye; *Music*, Professor Hitchcock.

JUNIORS.

Natural Philosophy—Professor Snell, Wednesday and Saturday, at ten o'clock.

Organic Chemistry—Professor Harris, through the term.

Mineralogy and Conchology.—Professor Shepard, fifteen lectures.

Greek Literature.—Professor Tyler, Monday, at eight o'clock.

SOPHOMORES.

Latin Literature.—Professor Crowell, Monday.

French Literature.—Professor Montague, Saturday, at eight o'clock.

FRESHMEN.

Greek Drama.—Professor Mather, Saturday, at eight o'clock.

EXAMINATIONS.

1. Oral examinations of all the classes, at or near the close of each term, on the studies of the term.

2. Written examinations of all the classes, either on the completion of studies, or near the close of each year on the studies of the year.

3. Written examinations of the Senior Class closing two weeks before Commencement.

A record is kept by the Faculty of the attainments and deportment of every student, and each student's standing on the merit roll is made known to him at the beginning of every term. Information concerning his proficiency and deportment is communicated to the parent or guardian, when requested or when deemed necessary.

LIBRARIES.

The Libraries of the College and the Literary Societies contain about thirty-seven thousand volumes. The *College Library and Reading Room* are open every day (Sundays and holidays excepted) from nine to half-past eleven o'clock, A. M., and from half-past one to four o'clock, P. M. Books of reference may be consulted at any hour when the Reading Room is open; but books can be drawn only from eleven to half-past eleven, A. M., and from half-past one to two, P. M. The *Libraries of the two Literary Societies* are accessible to the members of the Societies according to regulations established by themselves, and are open for the delivery of books on Wednesday, from half-past two to quarter-past three o'clock, P. M, and on Saturday, from half-past one to two o'clock, P. M. The *Social Union Reading Room* is open every day except the Sabbath.

APPARATUS FOR MATHEMATICAL AND PHYSICAL SCIENCE.

The Lawrence Observatory, consisting of a transit room, and a tower with a revolving dome, is furnished with instruments for accurate astronomical observations. The pier in the centre of the tower sustains a refracting telescope, mounted equatorially, having a focal length of nine feet, and an aperture of seven and one-fourth inches. The telescope was manufactured

by Alvan Clark, A. M., of Cambridgeport. The transit room contains a transit circle, clock, and chronograph, for meridian observations. The circle was graduated by Gambey, of Paris. The Observatory also contains an altitude and azimuth instrument, by Gambey, and the usual instruments, of the latest and best construction, for surveying and engineering.

The collection of *apparatus for experiments in Natural Philosophy*, is extensive, and well adapted for a course of experimental illustrations. It occupies a room in the second story of the WALKER HALL, where ample accommodations are furnished for its arrangement and use.

The *Chemical Laboratory and Lecture Room* occupy the first story of the WILLISTON HALL. These rooms are furnished with apparatus for an extensive course of chemical experiments.

CABINETS OF NATURAL HISTORY.

The specimens illustrating Natural History and Human Antiquities, are deposited in the three edifices known as the Woods Cabinet, the Appleton Cabinet, and the Walker Hall.

The WOODS CABINET is named in honor of Hon. Josiah B. Woods, of Enfield, its principal donor. The upper story contains the *Shepard Collection*, including meteorites, and more than 10,000 geological specimens, mostly fossil. The lower room contains the *General Geological Collection* of the college, together with the State Collections of Massachusetts, Connecticut and Vermont, which together amount to 12,000 specimens. An adjoining room called the *Nineveh Gallery*, built by Enos Dickinson, Esq., of Amherst, contains specimens obtained by Dr. Henry Lobdell from the ruins of ancient Nineveh and Babylon. It exhibits sculptured slabs from the palace walls of Sardanapalus at Nimroud, and many antique coins, seals, and cylinders, from the same cities.

In the APPLETON CABINET, named from Hon. Samuel Appleton, of Boston, are the *Hitchcock Ichnological Collection*, the *Gilbert Museum of Indian Relics*, and the *Adams Zoölogical Collection*.

In the unique *Ichnological Collection*, named after President Hitchcock, are to be found about 1,400 specimens, containing at least 20,000 tracks of animals in stone, together with plaster and clay casts of tracks of living and

fossil animals. The *Museum of Indian Relics* receives its name from Hon. George H. Gilbert, of Ware, Mass., by whose liberality it was mainly established. It comprises about 3,500 specimens of the stone implements of that extinct Indian race, and principally those who lived in the Connecticut Valley. The *Zoölogical Collection* was principally gathered and arranged by Professor Charles B. Adams. It comprises prepared specimens of animals and their habitations, and dried plants, representing all the great groups of the animal and vegetable kingdoms. In the department of shells, it is particularly extensive and valuable. *A Collection in Comparative Anatomy* has been commenced and is incorporated with this collection.

The Walker Hall is a new granite building, named in honor of Dr. William J. Walker, its principal donor. The third story contains the Mineralogical Collection of Professor Shepard, consisting of more than 10,000 specimens; also his extensive collection of shells and his herbarium.

The collections, as arranged in these several cabinets, contain more than 100,000 specimens of the animal, mineral, and vegetable kingdoms.

The Cabinets are open to the public each week day, from ten to eleven o'clock in the morning, and from three to four o'clock in the afternoon, when the Custodian will be in attendance.

AIDS TO CLASSICAL STUDY.

Through the liberality of certain friends of the College, the Classical Recitation Rooms have been provided with various works of art, adapted to facilitate instruction, and to increase the interest of the students in classical study.

PHYSICAL CULTURE.

The Barrett Gymnasium, named in honor of Dr. Benjamin Barrett, of Northampton, is a granite building, with bowling alleys, and the gymnastic apparatus essential to the health, recreation, and proper development of students. It is open during the day-time to the members of the College for voluntary exercise, and at an appointed hour each class is required to be present and engage in exercise under the direction of the Professor of this Department. The required exercises consist almost entirely of the light gymnastics, the movements of which are guided and timed by music, while

the heavy and more difficult gymnastic work is entirely at the option of the student. No effort is required of any student which cannot be safely and profitably undertaken by any person who is sound in body and mind.

The Professor in this department is an educated physician, and as far as possible is expected to be acquainted with the physical condition of each student in town during term-time, and all students are permitted to consult him without charge. This department has been in successful operation for the past twelve years, and its good effects have surpassed the most sanguine expectations of its projectors and friends.

EXPENSES.

The following are the principal necessary expenses, exclusive of vacations:

General Term Bill, $30.00 per Term,	$90.00	$90.00
Room Rent, from $6.00 to $10.00 per Term,	18.00	30.00
Fuel and Lights, from $12.00 to $18.00,	12.00	18.00
Board from $3.50 per week to $6.00, making per year of *thirty-eight* weeks,	133.00	228.00

The expenses for Room Rent, Fuel and Lights, are estimated on the supposition that two students occupy the same room. For a few choice rooms a higher rent is required.

There are some expenses which result from taxes voluntarily imposed by the classes or societies. These and expenses for furniture, stationery, etc., will vary according to circumstances and the character and habits of the student.

PAYMENTS.

The amount of each term bill must be paid in advance. A bond, with satisfactory surety for the payment of all the College bills must be given by each student to the Treasurer, at the commencement of the term when he enters.

SCHOLARSHIPS.

The College has a fund of *seventy thousand* dollars, the income of which is appropriated to aid young men who are preparing for the Christian Ministry, and need assistance. Meritorious students of this class can receive each

a scholarship of *sixty* dollars annually. which will be credited to them on their term bills. The same class of students usually obtain from the American Education Society not less than *one hundred* dollars annually.

Several scholarships have been founded by the State of Massachusetts, by individuals, and by College classes, as given below. These endowments bear the names of the donors, and yield the annual incomes set against them respectively :

Massachusetts, three scholarships, forty-five dollars each.

Rev. Dr. Moore, the first President of the College, three, one hundred and forty dollars each.

Samuel A. Hitchcock, of Brimfield, six, one hundred dollars each. To this endowment a large sum has been recently added.

Asahel Adams, of North Brookfield, three, forty dollars each.

Samuel D. Warren, of Boston, two, seventy dollars each.

Rev. James L. Merrick, of South Amherst, one hundred and twenty dollars.

Mrs. Sarah Tuttle, of Wayland, seventy dollars.

Hon. Levi Russell, of Hadley, seventy dollars.

Isaac D. Farnsworth, of Boston, two, one hundred and five dollars each.

George Cook, of Keene, N. H., Class of 1841, seventy dollars.

Enos Dickinson, of Amherst, seventy dollars.

John C. Newton, of Worcester, seventy dollars.

George M. Ives, of Stafford Springs, Ct., one hundred and five dollars.

James H. Newton, of Holyoke, seventy dollars.

Charles Merriam, of Springfield, one hundred and forty dollars.

Joseph Carew, of South Hadley Falls, seventy dollars.

J. J. H. Gregory, of Marblehead, Class of 1850, seventy dollars.

J. H. Bigelow, of Worcester, thirty-five dollars.

Henry N. Bigelow, of Clinton, seventy-five dollars.

Birdseye Blakeman, of New York, seventy-five dollars.

George Howe, of Boston, three hundred dollars.

An individual of Boston, seventy dollars.

Wells Southworth, of New Haven, Ct., seventy dollars for the Class of 1822.

Alvin J. Johnson, of New York, seventy dollars for the Class of 1823.

Class of 1831, seventy dollars.

Class of 1836, seventy dollars.

Hon. Alexander H. Bullock, of Worcester, Class of 1836, ninety dollars for the same class.

Class of 1839, seventy dollars.

Class of 1849, seventy dollars.

Class of 1853, fifty dollars.

Class of 1855, seventy dollars.

Class of 1857, seventy dollars.

Class of 1860, sixty dollars.

Several other Class Scholarships have been established in part, the endowments for which are not yet placed in the College treasury.

The incomes from the above scholarships are credited to those to whom they are awarded, and the excess, if any, is paid near the end of the College year. Applications for aid should be made to the President in writing, with a statement of pecuniary circumstances.

PRIZES.

Composition Prizes. To Seniors, first prize, twenty-five dollars; second, fifteen dollars; to Juniors, first prize, twenty dollars; second, ten dollars.

The Kellogg Prizes. Given by Rufus B. Kellogg, of Oshkosh, Wis., for excellence in declamation. To the Sophomore and Freshman classes, each a prize of fifty dollars.

The Hyde Prize. Given by Henry D. Hyde, of Boston, one hundred dollars to that member of the Senior Class who may produce the best oration, regard being had to excellence both in composition and delivery.

The Hardy Prizes for improvement in Extemporaneous Speaking. Given by Hon. Alpheus Hardy, of Boston, and awarded near the close of the College course; first prize, fifty dollars; second, thirty dollars; third, twenty dollars.

Moseley Prize Scholarships. Given by Thomas W. H. Moseley, of Hyde Park, N. Y.; eighty dollars and forty dollars to Seniors of highest attainment in the Scientific Evidences of Religion.

Greek Prizes. 1. The Hutchins Prizes. Given by Waldo Hutchins, of New York, Class of 1842; forty dollars for the best, and twenty dollars for the next best examinations, both oral and written, in the Demosthenes, Plato, and Homer's Iliad, read in the College course.

2. The Strong Prizes. Given by Alexander Strong, of Boston; thirty dollars to the member of the Freshman Class whose standing is the highest in Greek at the close of the year, as determined by the marks for all the recitations and examinations of the Department, and thirty dollars to the member of the same class who shall have made the greatest improvement in his standing during the year.

Latin Prizes. 1. Twenty-five dollars for the highest scholarship at the close of the Sophomore year, and fifteen dollars for the greatest improvement during the first two years of the College course.

2. The Bertram Prize. Given by John Bertram, of Salem; one hundred dollars for highest attainment in Latin during the College course.

3. The Bowers Prize. Established by George W. Bowers, of Orange, N. J.; twenty-five dollars for the best written translation into Latin of an assigned passage from some English author.

4. Fifteen dollars for the best written and oral examination upon Part III. of Harkness's Latin Prose Composition.

The Walker Prizes. Given by Dr. William J. Walker, of Newport, R. I.; for excellence in the Mathematics of the year, as exhibited in both

oral and written examinations; to Sophomores, first prize, thirty dollars; second, twenty dollars; third, ten dollars; to Freshmen, first prize, twenty-five dollars; second, fifteen dollars.

The Phi Beta Kappa Prize. A prize of forty dollars, given by the Phi Beta Kappa Society, to a member of the Society, for proficiency in the studies of the philosophical department during the Senior year, in such direction as the Faculty may from year to year determine

The Porter Prizes. Given by Eleazar Porter, of Hadley.

1. A prize of sixty dollars to the candidate who passes the best examination for admission to the Freshman Class. Together with the name of the successful candidate, that of the school, at which he prepared for College will be published in the Catalogue.

2. A prize of thirty dollars for scholarship in Natural Philosophy, (including Mechanics, Astronomy, and Physics,) to be awarded at the close of the Junior year to the student whose standing is highest, as determined by the marks for all the recitations and examinations of the department.

Prize Scholarship of the Class of 1861. A prize of seventy-five dollars, given by the Class of 1861, to be awarded to the student who makes the highest attainment in Chemistry during the course.

The Woods Prize. A prize of sixty dollars for general culture and improvement, given by Hon. Josiah B. Woods, of Enfield.

The Sawyer Prizes. Two prizes given by Hon. Edmund H. Sawyer, of Easthampton, to be awarded in the department of Physical Culture.

1. A gold medal of the value of fifty dollars for the best examination in Anatomy, Physiology, and Hygiene, and a silver medal for the next best examination in the same studies.

2. A prize of thirty dollars, to be awarded in the department of Physical Education and Hygiene, at the discretion of the Professor in that department.

German Prizes. One of $40 and one of $20, given by Samuel D. Warren, of Boston.

The Shepard Mineralogical Prizes. Four prizes of mineralogical specimens, valued respectively at $15, $8, $6, $5, given by Prof. Charles

U. Shepard to members of the Senior Class, for greatest excellence in the department of Mineralogy.

The Prizes for last year were awarded as follows:
